

LSIS Regional Sustainability Advisers 2012

About the LSIS Regional Sustainability Advisers

Through the Leading and Learning for a Sustainable Future strategy and action plan, LSIS is working with individuals and providers to build and promote sustainability learning and resources. Our focus is developing capacity and capability, and sharing and embedding effective practice

LSIS Regional Sustainability Advisers (RSAs) are in place to help lead change in their region. They are ambassadors for embedding sustainability into organisational strategy, practice and performance, and for developing the capacity and capability of sustainability leaders to drive change. They will build and connect with sustainability networks across their region, promote and help to embed LSIS sustainability programmes and resources, and host networking events. They will also lead the scoping and implementation of a collaborative project to explore and address a shared sustainability challenge or priority, working with other providers in the region.

To find your RSA and get in touch, please refer to the table below.

Region	Name	E-mail
East Midlands	Roy Morgan-Wood Leicester College	rmorgan-wood@leicestercollege.ac.uk
East of England	Esin Esat Bedford College	eesat@bedford.ac.uk
London	Emma Bara Redbridge Institute	emma.bara@redbridge-iae.ac.uk
