20.30-22.00

Green Gown Awards Ceremony
Hosted by Kate Humble

23.00

Bar Closes

Decorations: All centre-piece table decorations are 100% natural and bio degradable. The 100% natural latex balloons, raffia ribbon and cardboard weight boxes will all be dismantled at the end of this evening and put into a compost bin and will bio degrade at approximately the same rate as an oak leaf. The raffia is created from palm leaves that are dried and stripped.

The Green Gown Awards recognise exceptional initiatives being undertaken by further and higher education institutions across the UK to become more sustainable. Now in their 5th year the Awards have become the most prestigious recognition of sustainability best practice in the university and learning and skills sector.

The Awards began in 2004. Since then they have grown tremendously and are gaining in strength and reputation. The number of applications has risen dramatically with a record 178 applications submitted for 2009. This achievement underlines the value and recognition that winning offers, while also highlighting the growing importance of sustainability with the further and higher education sector.

There are 12 Award categories for 2009, including a new BIS Award for Outstanding Contribution to Sustainability in an English University or College. A winner and up to two highly commended entries are recognised in each category.

Great thanks go to this year's sponsors:
