TRANSFORMING THE WORLD TO SUSTAINABILITY

# ISO 14001:2015 ARE YOU READY?

## IEMA CAN HELP YOU MAKE THE TRANSITION

COURSE	WHAT WILL IT DELIVER?	WHO IS IT FOR?
<b>Making the Transition to ISO 14001:2015</b>	An overview of the new requirements of ISO 14001:2015, enabling delegates to evaluate and implement changes and improve their organisation's Environmental Management System.	Those learners who have experience in implementing ISO 14001 EMS and will need to manage the transition to the updated standard.
<b>Leading with Environmental Sustainability</b>	This powerful session challenges leaders in organisations to formulate a strategic understanding of the risks and opportunities presented by a changing environment on their ability to do business.	The decision-makers of every organisation, regardless of sector specialism or previous experience of environmental issues.
<b>Working with Environmental Sustainability</b>	This course is designed to provide an underpinning knowledge of environmental sustainability.	Those working in any job role across all sectors, to ensure that environmental sustainability is embedded into all job roles of a company.
<b>Managing with Environmental Sustainability</b>	Key managers will find this course beneficial in embedding environmental sustainability within an organisation.	Supervisors and managers who require a strategic and operational overview of environmental sustainability as it affects their specific industry and work area.

IEMA has a wide range of courses covering auditing, EMS implementation, carbon management and much more.
