Contract Value:	£0
Industry Sector:	Education/Public Sector
Contract Dates:	Sept 2015 – Dec 2019
Location:	Loughborough

Brief Description of Work Carried Out
IT recycling which includes the collection of other WEEE to include white goods and refrigeration units. Collections are run on a regular schedule on the 1 st and 3 rd Fridays of every month and CDL collect directly from each department. The University is provided with all legal documentation required and a full asset report of equipment that has been retired.
Key Achievements / Added Value
Reliable service for collections Facility audited in September 2015 All relevant documentation received on the day of collection Asset reports provided on time as agreed and contain detailed information not previously received.
Key Challenges and How Overcame Them
Initially we had to make adjustments to the regular schedule to make sure that all collections were completed when requested. After a couple of collections these minor issues were ironed out so that moving forwards departments received collections when expected.
Testimonials
CDL provide a much more reliable service than the previous company and all collections are completed when scheduled. In addition they have a new state of the art processing facility which opened in September 2015, we were one of the first Universities to visit this location and were very impressed with the overall process that is in place for redundant equipment.
Relevant Evidence
Since September 2015 CDL have successfully completed 33 collections from our University.
