

A Project Delivered by the Environmental Association for Universities and Colleges (EAUC) in collaboration with JISC and HEEPI's SustelT Project

Minimising the Environmental Impacts of Printing

Location: Docklands Campus, University of East London

Room: EB1.08 in the East Building

Date & Time: 27th May, 2010 from 13.00 to 16:00 pm.

Registration and lunch from 12.30.

This free workshop forms part of a JISC-financed ICT Carbon and Energy Management Programme. It is being organised in collaboration with another JISC-financed project, on sustainable printing at the University of East London. The event will provide an opportunity to:

- Learn more about the benefits of participating in the sustainable ICT project (see overleaf for details, including free consultancy)
- Network with peers from other universities and colleges who are interested in IT environmental issues in general, and in particular, printing.
- Gain a better understanding of measures which can reduce the environmental impacts of printing, and to hear about examples of their implementation from universities and colleges.

Numbers will be limited to enable interaction, and attendees will have a chance to briefly describe their own initiatives within this area. The presentations will include discussion of:

- Print Management and Associated Consolidation of Printing Devices : Mark Harris from Canon.
- Behavioral Change to Reduce Printing : Felicity Swaffer from Alexi Marmot Associates.
- Sustainable Printing : A success story :The University of Limerick's 32% reduction in A4 paper use, Nicola Hogan.
- Driving Sustainability to Improve IT Skills, Pedagogic Quality and Reduce Costs : Alan Lee Document & Copyright Services Manager, Centre for Learning Support & Development, London South Bank University.
