## TEAM MEMBER

## SPECIALISM

## DESCRIPTION

---

**Matt  
Cotton**

Design and engineering of sustainable buildings

- In-depth knowledge of building physics, sustainable retrofit, low-energy design and energy systems and advises housing associations, commercial property developers and local authorities on retrofit.
  - Previously Technical Director at the National Energy Foundation and particular experience of large-scale low carbon funding streams including ECO and Green Deal.
  - Accredited CIBSE Low Carbon Consultant, ESOS Lead Assessor, Fellow of the Centre of Refurbishment Excellence (CoRE).
- 

**Richard  
Beevers**

Marketing and engagement

- 30 years' experience in strategic marketing and communications covering the private and public sectors and formerly Executive Director of Capita Property & Infrastructure.
  - Strong track record in both creating behaviour change and in communicating with hard-to-reach audiences with extensive experience of social housing providers and local authorities.
  - Fellow of the Chartered Institute of Marketing and Non-Executive Director of Gentoo Group.
- 

**Chris  
Newman**

Programme optimisation and planning applications

- Director of Parity Projects and a recognised expert in stock assessment, programme optimisation (CROHM), mapping and planning.
  - Winner of GreenBuild Best Eco-Renovation 2014.
  - Non-Executive Director of the Ecology Building Society.
- 

**Lisa  
Pasquale**

Technical risks

- Building performance evaluation specialist with building physics, energy behaviour in buildings, quality control in construction.
  - Trained Architect, Chartered CIBSE Engineer, and Qualified Retrofit Coordinator (from CoRE).
  - Rising Star 2016 awarded by UKGBC following work on technical risks through the **RE:NEW** programme.
- 

**Peter  
Rickaby**

Technical risks

- 30 years' experience of energy and sustainability consultancy, including design advice, low carbon retrofit, housing energy efficiency and sustainability, environmental assessment, building performance evaluation, guidance and training.
  - Non-Executive Director of the Centre of Refurbishment Excellence (CoRE) and Member of the Board of Trustees of the National Energy Foundation.
  - Degree and RIBA qualified architect.
-
