

Sustainable Procurement Training for Students' Unions

End of product life

- Added to additional cost – WEEE Directive
- Some electrical companies responsible for waste after – but where does it truly go?
- Choice of company – review of preferred companies
- Going to local products – does this impact EOL (End of Life)
- How using position to create change – internal departments and strategy
- Making sure asking the right questions
- Sponsorship opportunities
- May not find out everything from tender – meet and ask questions
- Start with the most problematic/high content waste first – review and link with university
- Get estate team involved
- Looking at refitting/refurbishments
- Biodegradable packaging
- Right promotion and marketing to get awareness
- Story of a product – good or bad
- Incentivisation – shared values may not match partners
- Little green shop – resale
- Inform students and campaigning
- Work with charities – end of student studies
- Influencing landlords
