

# Carbon Connections

Seeking, encouraging and investing  
in carbon-saving innovation

**Carbon Connections projects demonstrate a reduction in carbon emissions, innovation, knowledge transfer and sustainability.**

**27 funded projects covering:**

- microgeneration
- waste management
- biofuels
- carbon sequestration
- sustainable construction
- engineering
- chemical processes
- combined heat process
- domestic heating
- manufacturing
- behaviour change.

**UEA**  
University of East Anglia
