# Sustainable Transport

Emma Kemp

# Nottingham in numbers

**8 sites**

4 campuses + 4 hospitals

**11km**

roadway on teaching campuses

**33,400**

students

**4,950**

cycle parking spaces

**950,000**

hopper bus journeys annually

**4,900**

car parking spaces

# What are we doing?

## commute

Bike to Work

Season ticket loans

EV infrastructure

Car share scheme

Parking charges

PTPs

Cycle hire

Cycling  
infrastructure

Dr Bike

## business travel

EV fleet

Cycle mileage  
allowance

Intercampus  
buses

Video-conferencing

Pool bikes

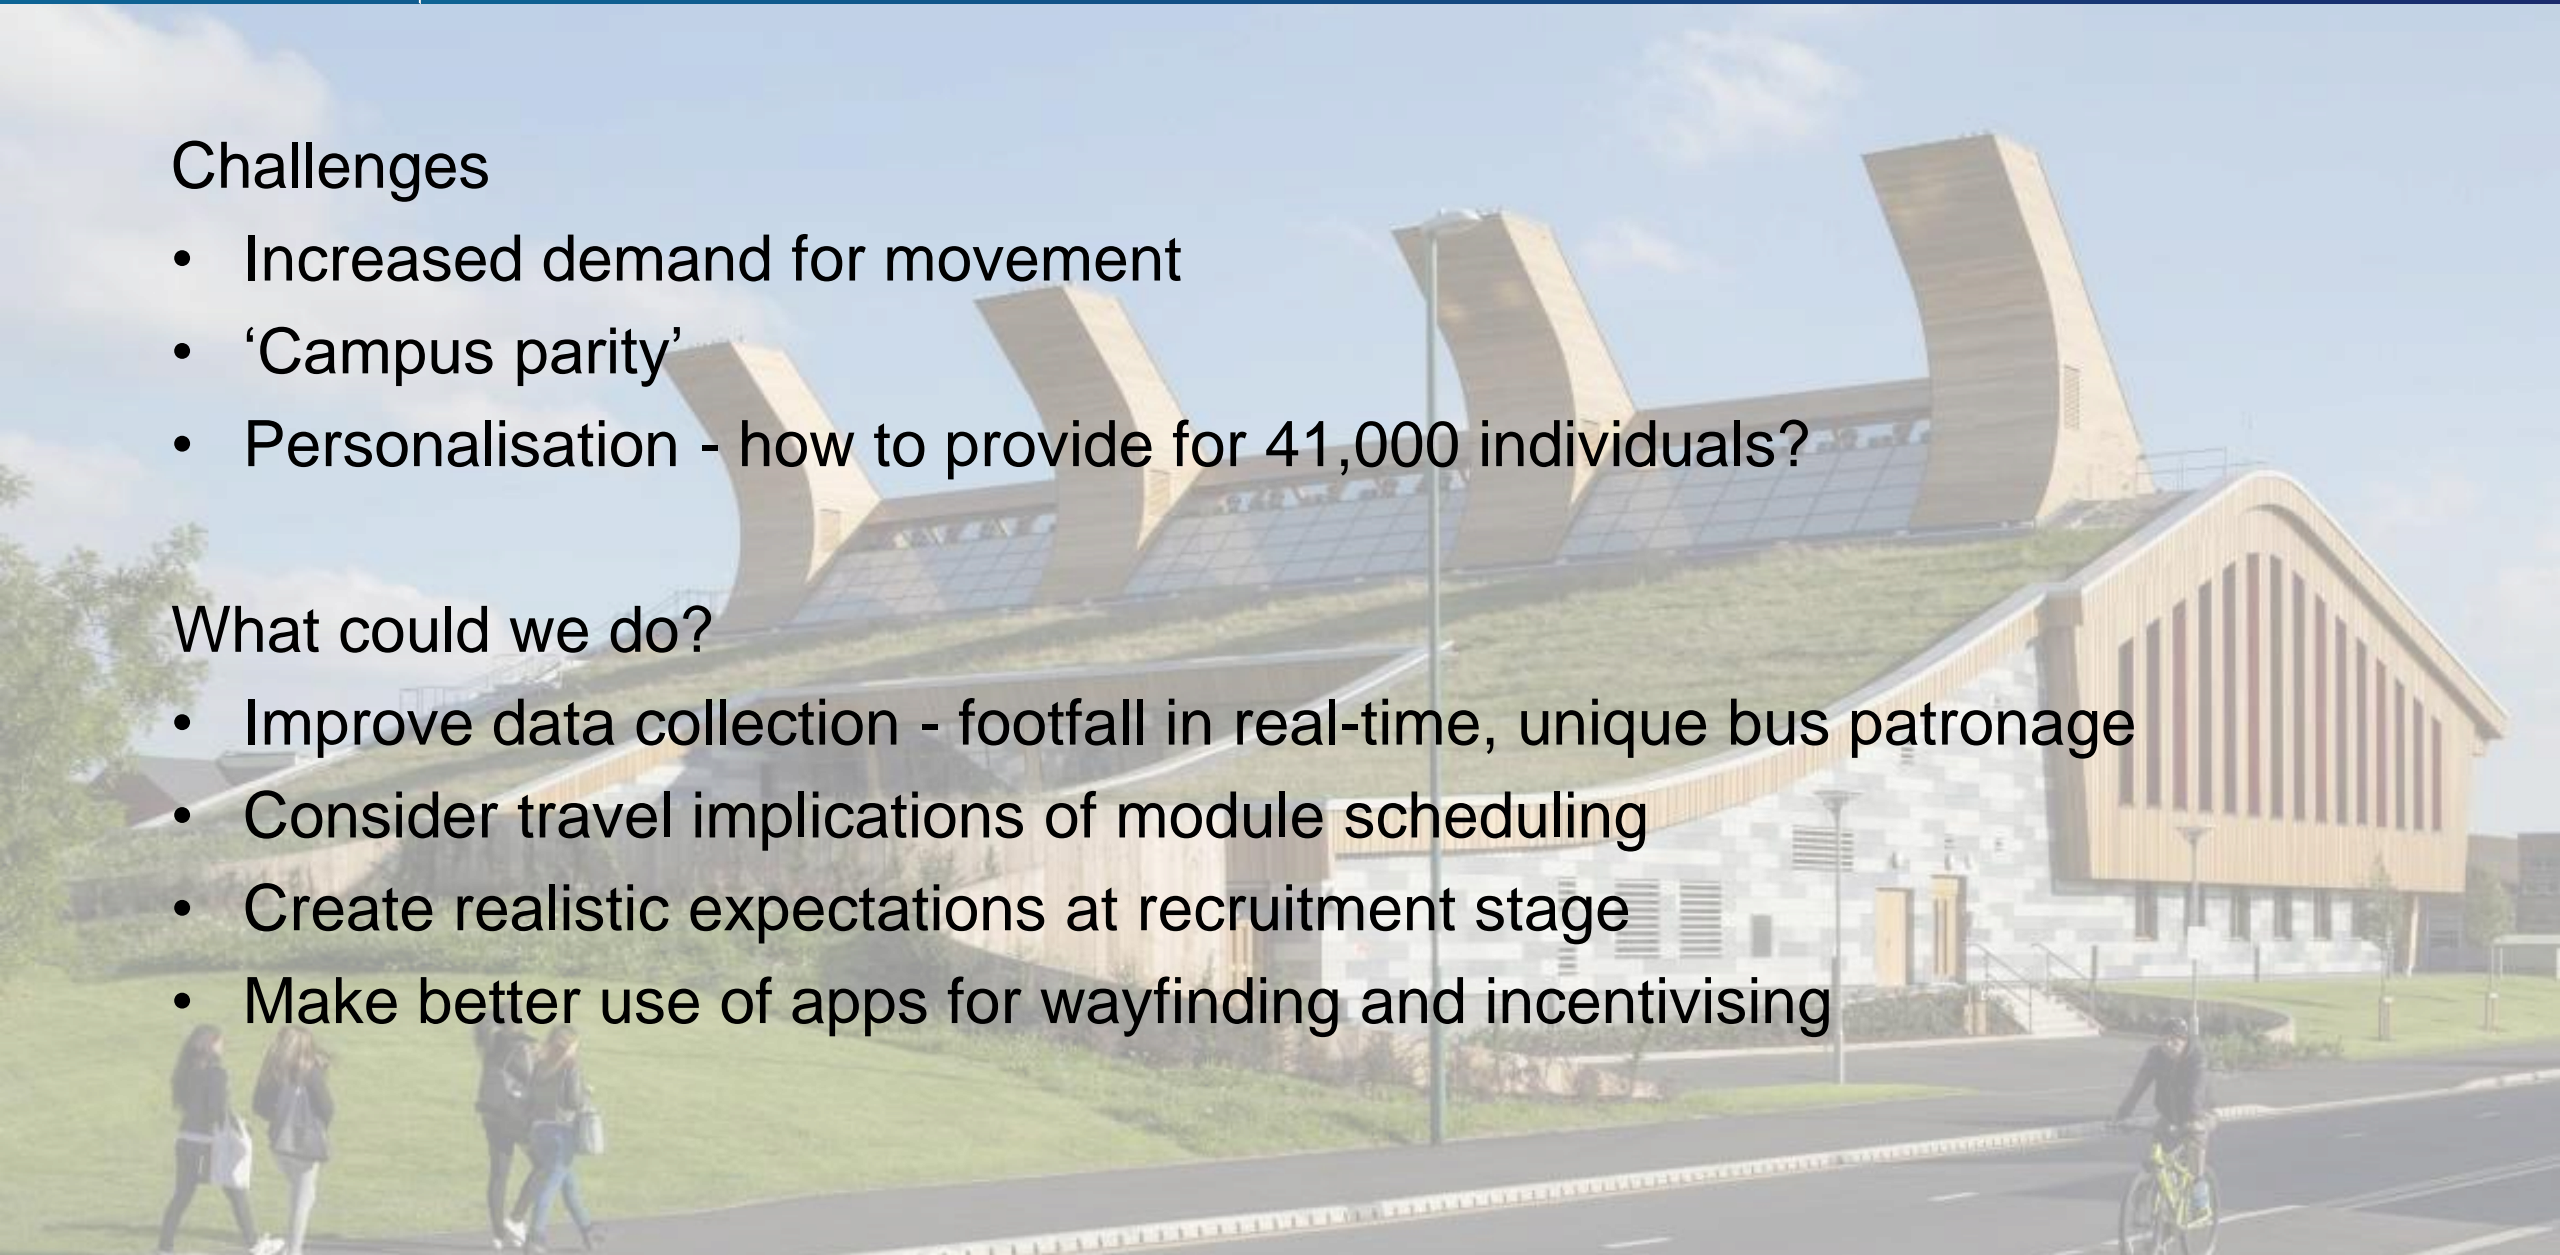

## Challenges

- Increased demand for movement
- ‘Campus parity’
- Personalisation - how to provide for 41,000 individuals?

## What could we do?

- Improve data collection - footfall in real-time, unique bus patronage
- Consider travel implications of module scheduling
- Create realistic expectations at recruitment stage
- Make better use of apps for wayfinding and incentivising

- IMPETUS project – intelligent mobility
- Smart city / campus ambitions
- Summer research placements
- DfT grant – active travel dashboard
- Wayfinding on campus

## Enhancing public transport

- Workplace Parking Levy
- SQPS
- Robin Hood multi-operator ticket

## Encouraging active travel

- Citycard Cycles
- Cycle corridors

## Improving air quality

- Go Ultra Low Nottingham
- Clean Air Zone

## Next steps / wish list !

- Dedicated car share bays
- Real-time availability of car parking spaces
- Consistent day rate for staff parking
- Masterplanning – footpath & road network, location of bus stops & cycle parking
- Transport interchange on University Park
- Pedestrian/cycle bridge from University Park to north side of Derby Road
- Train station at Jubilee Campus
