

USS: Step Forward on Climate

What is USS doing to ensure our pensions are sustainable for the long-term – both financially and environmentally?

Hear from leading climate experts, **Professors Myles Allen, Kevin Anderson and Joanna Haigh**

With presentations from:

Bill Galvin, Chief Executive of USS

Roger Gray, Chief Investment Officer of USS

David Russell, USS co-head of Responsible Investment

Join the discussion at our Climate Assembly:

Monday 9 May 2016
18:00-20:00

UCL Cruciform B404 - LT2

USS: Step Forward on Climate

"The challenges currently posed by climate change pale in significance compared with what might come... why isn't more being done to address it?" - Mark Carney, governor of the Bank of England

Climate change presents a real and pressing threat: to people, the planet and pension savings. Last December, 195 countries adopted a legally binding deal to limit global warming to well below 2 degrees.

In the wake of these unprecedented commitments at the COP21 talks in Paris, come and *find out what your pension scheme is doing to reduce its carbon footprint and prepare for a low-carbon future.*

Join the discussion at our Climate Assembly:

When: Monday, 9 May 2016 from 18:00 to 20:00

Where: UCL Cruciform B404 - LT2
